

CancerStats area

Introduction to CancerStats

The CancerStats information and reporting portal is the repository for all feedback on those national datasets, which are managed or supported by the National Cancer Registration and Analysis Service (NCRAS).

- This includes the Cancer Outcomes and Services Dataset (COSD); one of the main data sources for the NABCOP's reporting. **Completeness and quality of these data are therefore paramount to publishing accurate information.**
- A full list of data sources the NABCOP uses is available on our FAQs page <https://www.nabcop.org.uk/about/faq/professionals/>

<https://cancerstats.ndrs.nhs.uk/>

For access to the CancerStats reporting site via the link in the box above:

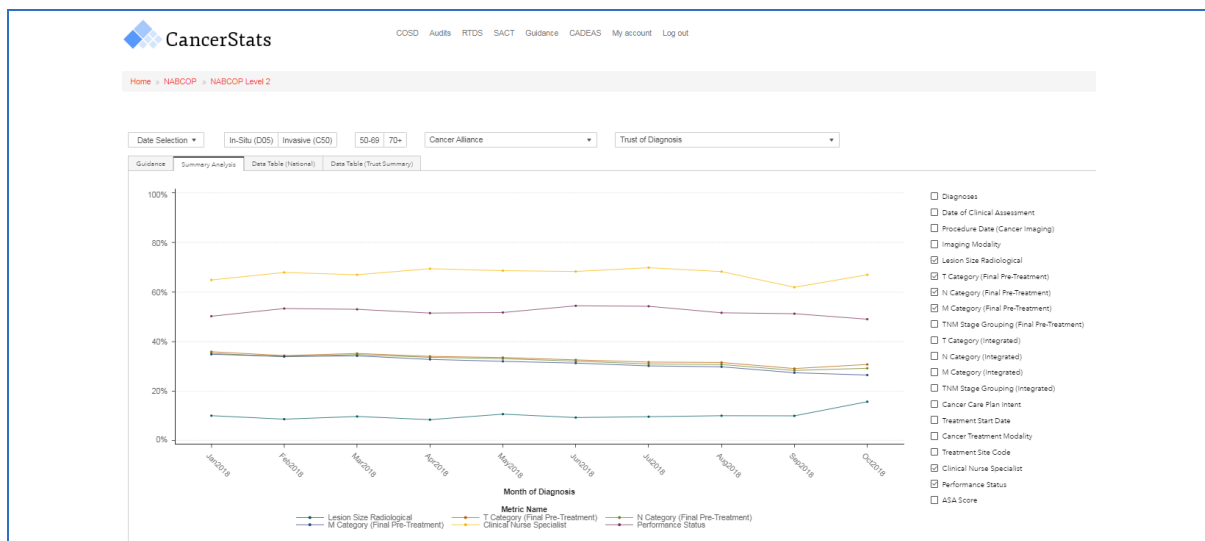

- (1) you will need a secure N3 connection and
- (2) please contact your local Data Improvement Lead to set up account details (listed below)

NCRAS office	Data Improvement Lead	Contact email address
National	Karen Graham	Karen.Graham@phe.gov.uk
East Midlands	Simon Cairnes	Simon.Cairnes@phe.gov.uk
Eastern	Marianne Mollett	Marianne.Mollett@phe.gov.uk
London	Katrina Sung	Katrina.Sung@phe.gov.uk
North West	Paul Stacey	Paul.Stacey@phe.gov.uk
Northern and Yorkshire	Laura Prenton	Laura.Prenton@phe.gov.uk
Oxford	Gemma Feeney	Gemma.Feeney@phe.gov.uk
South West	James Withers	James.Withers@phe.gov.uk
West Midlands	Gemma Feeney	Gemma.Feeney@phe.gov.uk

Note: Details are correct as of May 2019.

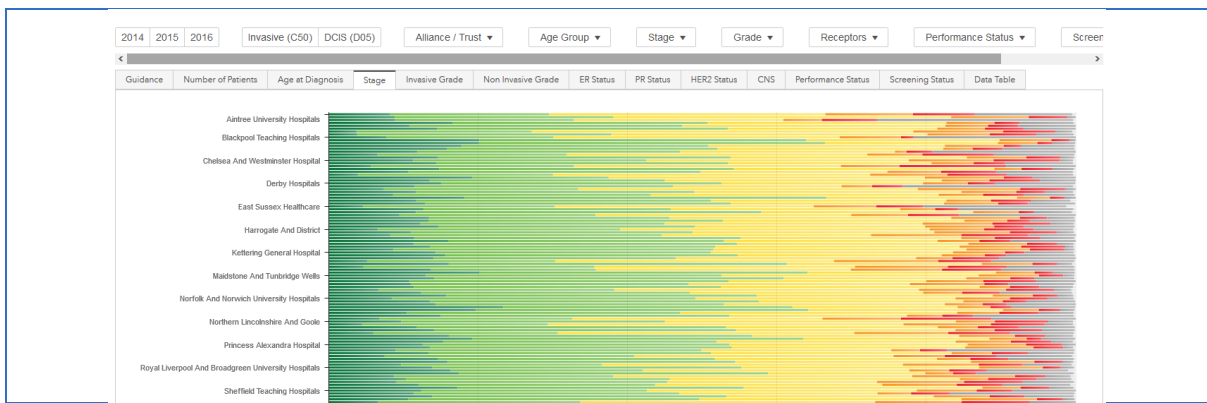

The NABCOP Level 2: Data Completeness Reports

Enable users to monitor **COSD data returns** in real time, and update their data within the current calendar year.

The NABCOP Level 3: Data Completeness Reports

Enable users to **interrogate the 2014-2017 datasets** reported on in the NABCOP 2019 Annual Report, and produce bespoke analyses. The Level 3 Report will be expanded to allow interrogation of the 2014-2018 datasets used in the NABCOP 2020 Annual Report, in Summer 2020.

The NABCOP Quarterly Reports

Enable Trusts to monitor the data completeness of the following **pre-specified key COSD data items** on a quarterly basis: TNM staging, Performance Status, Treatment Start Date, and Clinical Nurse Specialist (CNS) seen.

The NABCOP Data View

This template, found within CancerStats, provides **patient level detail for all NABCOP eligible patients within Somerset (SCR) Systems**; and increase awareness of which key NABCOP metrics require improvement.

For information and help

For more information on the NABCOP please visit the website www.nabcop.org.uk or contact the project team on nabcop@rcseng.ac.uk

- Key resources for the audit are found on the [Resources](https://www.nabcop.org.uk/resources) webpage (<https://www.nabcop.org.uk/resources>)
- [Frequently asked questions](https://www.nabcop.org.uk/about/fag/professionals) for professionals are regular updated (<https://www.nabcop.org.uk/about/fag/professionals>), and
- All NABCOP reports published since 2017 are available on the [Reports](https://www.nabcop.org.uk/reports/) webpage (<https://www.nabcop.org.uk/reports/>).
